About Me

Dedicated and commited Junior Web Developer with hands-on experience building responsive web applications using HTML, CSS, JavaScript, React, PHP, Java, and MySQL. Successfully completed a one-month Full-Stack Web Development internship, where I contributed to real development tasks and earned both an Internship Certificate and a Recommendation Letter. Developed practical projects including a pharmacy management system, a student management system, and a computer sales website and others. I am a fast learner who enjoys exploring new technologies and continuously improving my skills through daily learning and hands-on practice. Eager to apply my technical knowledge, grow as a developer, and contribute to building high-quality, user-friendly web applications.

WORK EXPERIENCE

Mar 6- April 7

Future Interns Plc.

Fullstack web developer

- build and design web pages using front end languages
